Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-15 and 17-20, drawn to a solenoid, classified in class 251, subclass 629.21.
 - II. Claim 16, drawn to a fuel injector, classified in class 239, subclass 585.1.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are separately usable. In the instant case, invention I can be used in devices other than fuel injectors. See MPEP § 806.05(d).
3. Because these inventions are distinct and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
